PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building scalable web applications using React, Next.js, Node.js, C#/.NET, ASP.NET Core MVC, and Angular. Currently Senior Full Stack Developer at My Money House, leading multiple concurrent Australian FinTech and e-commerce platforms. Deep expertise in Clean Architecture, CQRS, and RESTful API development, with a primary focus on React/Next.js for frontend development and Angular for enterprise projects. Experienced in cloud deployments on Microsoft Azure and Azure DevOps CI/CD pipelines. Passionate about AI-driven development and workflow automation using tools like n8n, Ollama, Cursor AI, Claude, and GitHub Copilot. Strong background in FinTech, Logistics, and Healthcare domains with a track record of delivering high-quality, maintainable solutions in Agile/Scrum teams.

TECHNICAL SKILLS

- Backend: C#, ASP.NET Core (Web API / MVC), Node.js, Entity Framework Core, Dapper, SignalR, JWT, CQRS, MediatR, RESTful APIs, Microservices Architecture, LINQ, PHP
- Frontend: React, Next.js, TypeScript, Angular (recent versions), RxJS, NgRx, Vue, Tailwind CSS, Bootstrap, Figma
- 3D / Creative Tech: Three.js, Blender
- Cloud & DevOps: Microsoft Azure, Azure DevOps, CI/CD Pipelines, AWS, Docker, Vercel, cPanel
- Databases: MS SQL Server, MySQL
- Architecture: Clean Architecture, CQRS, Domain-Driven Design, Agile / Scrum
- AI & Automation: n8n Workflow Automation, Ollama (Local LLM), Cursor AI, Claude Code, GitHub Copilot, GHL, Google API
- Tools: Git, Bitbucket, WordPress

WORK EXPERIENCE

My Money House | *Senior Full Stack Developer* | Jun 2026 – Present

- Leading full stack development across multiple concurrent Australian FinTech and e-commerce platforms, including mmh-v2.mymoneyhouse.com.au, lendux-v2.mymoneyhouse.com.au, mph.mymoneyhouse.com.au, and e-commerce.megarewards.au.
- Building modern frontends and backends using React, Next.js, Node.js, TypeScript, and Tailwind CSS, backed by MySQL and PHP.
- Producing 3D assets and interactive visuals using Blender and Three.js for property and interior showcases, including a 3D virtual tour experience.
- Designing and deploying AI-driven workflow automations with n8n, GHL, and Google API integrations to streamline lead handling and business processes.
- Managing hosting, deployment, and server configuration via cPanel across multiple production sites.

Offshore Business Processing | *.NET Developer* | Dec 2023 – May 2026

- Developed and maintained high-performance REST APIs using ASP.NET Core, C#, and Clean Architecture principles, delivering scalable full-stack solutions across Logistics and Freight Forwarding domains.
- Built scalable frontends primarily with React and Angular, focusing on reusable component architecture, TypeScript, RxJS, and NgRx for state management and reactive programming.
- Implemented real-time communication features using SignalR for time-keeping and sports management systems, improving user engagement and data freshness.
- Automated internal enterprise workflows using n8n and integrated Ollama for local AI-assisted data processing, reducing manual workload by significant margins.
- Collaborated within Agile/Scrum teams, contributed to backlog refinement, and mentored junior developers on best practices in architecture and code quality.

MedBlast | *Front-End Developer & UI/UX Designer* | Jul 2023 – Nov 2023

- Engineered responsive and accessible web interfaces for a healthcare candidate-sourcing platform using modern JavaScript and component-based design.
- Optimized platform performance and SEO metadata, measurably improving search rankings and user engagement.
- Designed professional UI/UX mockups in Figma, presenting proposals to stakeholders and driving final implementation decisions.

Rockwell | *Programming Analyst* | May 2023 – Jul 2023

- Developed the User Access Request (Compliance Request System) using ASP.NET Core MVC and MS SQL Server, applying Clean Architecture and CQRS patterns for maintainability.
- Documented complex business logic for access control workflows and coordinated production deployments via AWS.

Norima Consulting Inc. | *Software Engineer* | Sep 2021 – May 2023

- Contributed to the Advisor Credit Exchange (ACE) platform, a FinTech solution connecting wealth managers with banks, using ASP.NET Core and Angular.
- Built dynamic dashboards and real-time backend communication features using Telerik UI and SignalR.
- Collaborated with cross-functional teams to deliver features aligned with financial compliance and business requirements.

KEY PROJECTS

- My Money House Platforms (MMH, Lendux, MPH) – Multiple concurrent Australian FinTech broker platforms rebuilt with React, Next.js, and Node.js, including a 3D virtual tour built with Blender and Three.js.
- Mega Rewards E-Commerce – E-commerce platform (e-commerce.megarewards.au) built with modern full stack tooling and integrated AI automation.
- Advisor Credit Exchange (ACE) – FinTech lending platform connecting wealth managers and banks, built with ASP.NET Core and Angular, featuring real-time dashboards and complex business rule enforcement.
- Compliance Request System (CRS) – Enterprise audit-tracking system using Clean Architecture and CQRS, automating access-control workflows for a large organization.
- Map Cargo Global Logistics – Full-stack web platform for international freight management, integrating logistics tooling and client-facing portals.
- OBP Corporate & Careers Portals – Primary job and corporate sites (obpcareers.com, offshorebusinessprocessing.com) built with .NET and React.
- Freight Trade Alliance (FTA) – Logistics and trade alliance platform built with ASP.NET Core and React frontend.
- MedBlast Healthcare Platform – Responsive candidate-sourcing platform for the healthcare industry with SEO optimization and Figma-driven design.
- Personal Portfolio (johnphilipgarcia.com) – Full-stack portfolio site featuring 3D virtual tour assets.

EDUCATION

- BS in Information Technology – Batangas State University (2016 – 2021)
- Diploma in Information Technology – Montessori Professional College (2012 – 2014)
